

# LEADERSHIPdevelopment

## Launchpad: A Program for *Leaders of Leaders*

Launchpad is an exclusive 6-month program for *well accomplished leaders poised to shift into mastery – leaders ready to create exponential impact with more focus, purpose and flow.*

In high demand, inundated with projects and opportunities, Launchpad leaders are hungry to focus their energy in a way that creates substantial movement and results without the charge and drive of business as usual. Determined to “do” less and “inspire” more, Launchpad leaders are ready to step out of *managing others* and into the art of *leading leaders*.

With a commitment to looking within, as well the opportunity to learn from leaders like themselves, Launchpad participants will create profound and lasting shifts in their relationships, work and results.

*I was living the dream but still felt unsatisfied. I knew there was something more, and I knew it was from within. To be able to connect with other leaders like me and dive deep was incredible. The program helped me personally, in my business, and to make a difference in new and more meaningful ways.*

- Kerry Crandell  
Founder & President, WoMAN LLC

### Program Outcomes - Launchpad Leaders will:

- **Set in motion a new project or initiative** – re-ignite a big vision – from a place of greater power and impact, where less attachment and more space turbo charges results and growth.
- **Discover a masterful leader mind-set** that emphasizes “being” rather than “doing” as a means of accomplishing what’s possible.
- **Focus their energy and experience new clarity** about who to partner with and how to navigate time so more “gets done” with less effort.
- **Shed barriers and beliefs** that cause stress and free up their natural ability to powerfully create with and empower other leaders.
- **Learn ways to fulfill “Moonshot Projects” through the wisdom and talent of others** – leading leaders by showing up present, relaxed and at ease.

### Coach & Facilitator: Whitney Walpole

*Whitney has over 25 years of experience in leadership development, culture consulting and public speaking. She has been a trusted partner and coach to hundreds of business owners and leaders, and recently published her book *The Sweet Spot: Leveraging Talents in Leadership and Life*. She is the founder and president of Culture Counts.*
